Germany - December 16, 2020 - The MTM ASSOCIATION e. V. today announced that its TiCon extension is now available for trial and online purchase on [SAP® App Center](#), the digital marketplace for SAP partner offerings. TiCon integrates with SAP S/4HANA® and delivers professional solutions for day-to-day work in industrial engineering and manufacturing planning.

TiCon creates a transparent and standardized process from a customer's inquiry via product calculation to final production planning. Within TiCon, businesses can quickly and conveniently analyze planned routing- and operation times for manufacturing processes using MTM block systems or with other determined times, for example stopped times and empirical values.

TiCon provides the following benefits and core functionalities:

- Analysis and calculation for the manufacturing process, directly in SAP S/4HANA
- Direct, fast, and company-wide implementation of processes and product changes
- Identification of potentials by Workplace design in relation to time and simulation and comparison of time changes prior implementation on the plants shop floor
- SAP-certified integration with the SAP S/4HANA production planning module and a tight exchange and integration within existing production planning systems and enterprise resource planning software

At SAP App Center, businesses can discover approximately 1,600 innovative partner solutions that integrate with and extend SAP solutions. There, customers can find the SAP-validated partner apps they need to grow their business. And for each purchase made on SAP App Center, SAP will plant a tree. About MTM ASSOCIATION e. V.

The MTM ASSOCIATION e. V. is one of the leading industrial associations. With the association, the MTM Academy and the MTM Institute as well as the Deutsche MTM-Gesellschaft Industrie- und Wirtschaftsberatung mbH as a 100 percent subsidiary with the MTM software house, the MTM ASSOCIATION e. V. has a unique position.

The statutory mission of the non-profit association, founded in 1962 as Deutsche MTM-Vereinigung e. V., is the dissemination of the process language MTM (Methods-Time Measurement), the internationally recognized method standard for the description, evaluation, and design of human work.

With MTM, companies have an instrument at their fingertips with which they can precisely calculate processes, products, and personnel requirements, significantly increase productivity in the company and at the same time contribute to employee health. The MTM method was developed in the mid-1940s in the USA. <https://mtm.org/en/>
