

TRAINER / INSTRUCTOR (F/M/D)

We are looking for an experienced MTM expert (Practitioner or Instructor) who we would like to qualify as a licensed MTM-Instructor (e.g. operational process building block systems, ergonomics, logistics).

What we are looking for:

- Primarily conducting international trainings in the MTM process building block systems, operational building block systems, and the MTM Practitioner and Practitioner Refresher in webinar and classroom formats
- Imparting knowledge in industrial engineering methods and tools used along the product development process
- Participation in the development of teaching materials as well as in the methodical-didactic preparation of learning content
- Participation in the introduction and application of MTM in companies

Qualifications:

- License as MTM-Instructor or long-term MTM user in at least 2 systems
- Professional experience in comparable tasks or as a user
- Analytical way of thinking and working
- Ability to work in a team, flexibility and mobility
- Experience in project management desirable
- Very good PC skills in all MS Office applications
- Fluent in written and spoken English and German, other foreign languages an advantage
- High willingness to travel, driver's license

Your benefits are:

- An insight into different cultures and countries
- A modern working environment with innovative products and flat hierarchies
- Working from home - if desired
- Joint activities such as employee days
- Benefits such as accident insurance, company bike leasing, company pension scheme, etc.
- Permanent employment relationship

How to apply?

Send us your documents preferably by e-mail or by post. We look forward to getting to know you. As an alternative to the personal interview, we currently offer telephone or video interviews.
