

06/16/2021 | BLUE AND GREEN CARD NOW AVAILABLE ON SMARTPHONES

Following a decision by the MTM ASSOCIATION e. V. examination board, the coveted certificates and cards can now also be sent to graduates of MTM training courses in digital form. This service is available for all cards (MTM-Practitioner, EAWS- Practitioner, MTM-Instructor, C-Values and BMW GROUP SD user). The digital certificates of competency were developed in a joint production by the MTM Academy, MTM Software House and MTM Institute. The basis is the passbook format *pkpass, familiar from boarding passes, coupons and cinema tickets, which has been specially developed for smartphones – instructions are enclosed with the e-mail containing the digital certificate or card.

What is new is that in addition to the teaching licenses on the back of the card, the "Green Card" now also lists all additional teaching licenses. The cards can be supplemented and extended at any time. Andrea Hilliger, System Manager Global MTM Education Platform, and Dr. Thomas Finsterbusch, Head of MTM Academy, will present the new cards during the free MTM- and EAWS-Practitioner and -allInstructor Lounge on May 18, 2021 (in English from 2 pm - 3 pm). Registration [here](#).

Consistently on the path of digitization

With the digital version of the Blue and Green Cards, the MTM ASSOCIATION e. V. is consistently pursuing the path of digitizing its training offering. The foundation stone was laid in 2019 with the e-learning MTM-1 Base and the learning platform or seminar administration training.mtm.org. More than 450 participants have already completed the basic training and thus the first stage of the MTM-Practitioner qualification. In the past 12 months, the second wave of digitization has rolled in: all classroom training courses are now also offered as webinars. More than 2,000 participants have opted for this format so far – and worldwide: in the USA, China, India, Australia, Brazil, Germany, Poland, etc.

The latest training product of the MTM ASSOCIATION e. V. – MTM-UAS as e-learning – has been available for booking since April 21 of this year – at first in German; the English version will be coming soon. Not only the training itself, but also the provision of training documents and instructor material has been digitized – all available on the MTM Academy training platform at training.mtm.org.

And how do you get your digital certificate of competency?

Check your learning history on training.mtm.org in the "MyMTM" section and apply for your card by emailing training@mtm.org. If you have attended and successfully completed your training by one of our international One-MTM partners, please send us your certificates. For all cardholders with a valid Blue or Green Card, we will send them to you free of charge.

We are happy to issue a company-specific user card with company logo for company training concepts/building block systems.
