

25.09.2020 | IN THE COURSE LANGUAGE SPANISH UP TO THE BLUE CARD!

Travel restrictions, language barriers, no on-site training – whatever has so far prevented you or your employees from qualifying as MTM practitioners: We bring the MTM training to your home or to your workplace. Now also in the course language Spanish!

Travel restrictions, language barriers, no on-site training – whatever has so far prevented you or your employees from qualifying as MTM practitioners: We bring the MTM training quasi to your home or to your workplace. Now also in the course language Spanish!

The MTM academy offers immediately the training courses

- MTM-1 Base as E-Learning
- MTM-UAS as webinar and
- MTM-Logistics (standard processes) as webinar **in spanish language**.

The **MTM-1 Base** training provides basic knowledge and skills for the application of MTM-1 and the meaning of the MTM process building block systems, based on the MTM standard performance. The **e-learning** format in Spanish makes it possible to start the practical training at any time from your location.

The **webinars MTM-UAS** and **MTM-Logistics** (standard procedures) convey all contents to the MTM process building block systems, which are also dealt with in public education. Besides the theoretical part and practical demonstrations, interaction, practice and self-learning phases are integrated. During the individual sessions, a chat room is available for questions. The examination takes place afterwards – also online.

Next online course date MTM-UAS in Spanish: 16.-20.11.2020

Next online course date MTM logistics in Spanish: 07.-10.12.2020

Please also inform your Spanish speaking colleagues or employees about this offer.

Further information:

The registration for the Spanish language courses is done like for all other MTM trainings via

the [booking portal](#) of the MTM Academy.
