

07.08.2020 | ONLINE PORTAL OF THE MTM ACADEMY NOW EVEN MORE USER-FRIENDLY

In the past weeks, the online portal and the web shop of the MTM Academy were given a facelift with the active support of the MTM Institute. Just in time for the start of the 2020/21 training and further education season, the web shop now presents itself even more user-friendly. Thus, the different course formats - classroom, webinar, e-learning - are now visible at first glance.

In the past weeks, the online portal and the web shop of the MTM Academy were given a facelift with the active support of the MTM Institute. Just in time for the start of the 2020/21 training and further education season, the web shop now presents itself even more user-friendly. Thus, the different course formats - classroom, webinar, e-learning - are now visible at first glance.

Right on the start page there is an overview of the entire training offer of the MTM Academy - altogether more than 60 classroom courses, e-learning and webinars. An important note: If no dates are given for your desired training, please contact Christel Dornbach from the course organization, e-mail: christel.dornbach@dmtn.com She will offer you a solution.

If you have already decided on a qualification and are now looking for specific dates for the individual training courses, you can simply filter for MTM practitioner, MTM instructor, EAWS practitioner, EAWS instructor or further training courses via the menu bar in the upper left corner. Additional filters are the type of training (presence, e-learning, webinar) and the course language (German, English, Spanish, Italian, Hungarian, Polish, Czech) in the upper right corner.

General documents such as the valid training and examination regulations or the training structure are also made available on the booking portal. Under the menu item "Information" the user will also find information on the individual training courses, date and price lists, forms and forms, an overview of the locations for attendance events as well as directions and hotel information.

Gain your own impression of the new online portal [HERE](#).

If you have any questions regarding bookings or the materials in the download centre, the following contact persons will be happy to help you:
