

## **25.09.2020 | THE VOTING IS RUNNING - YOUR VOTE COUNTS - AND DO YOU ALREADY KNOW THE CLIP?**

The hot phase of voting for the "Innovator of the Year 2020" has begun. Until October 30, 2020, MTM experts, members of the MTM ASSOCIATION e. V., customers and interested parties have the opportunity to participate in this voting. Voting is done via an online form on the website of the network "Die deutsche Wirtschaft".

**You have not heard or seen anything about MTM-Easy?**

**TIME TO WIN** is just an easy thing - if this reminds you of a line from a song, then you are on the right track! We opened a real workshop in Norderstedt, hired a professional dance crew, a well-known director and production team, an imaginative composer as well as a great leading actor - and made MTM-Easy simply the topic of a music video. Curious?

**MTM-Easy nominated for Innovation Award of the German Economy**

The hot phase of voting for the "Innovator of the Year 2020" has begun. Until October 30, 2020, MTM experts, members of the MTM ASSOCIATION e. V., customers and interested

parties have the opportunity to participate in this voting. Voting can be done via an online form on the website of the network "Die deutsche Wirtschaft" or directly [HERE](#).

### **Why you should vote for MTM-Easy, the first cloud-based software solution for the determination of time data?**

- With MTM-Easy even small and medium-sized companies with considerably less resources and know-how in industrial engineering than corporations can benefit from the expert knowledge of the "big ones" and the security of an internationally recognized method standard.
- MTM-Easy gives a resilient answer to the question: What can my production actually achieve under the given conditions (work organization)?
- MTM-Easy not only shows potentials for improvement, it also quantifies them.
- The intuitive calculation tool impresses by easy handling and flexibility in application. Its use requires neither large investments nor MTM training.
- The data can be accessed from the desktop, but also mobile via smartphone or tablet. Thus MTM-EasyTime is not only applicable at the desk, but also directly in the production hall or workshop.
- The data determined with MTM-Easy can be used directly for the presentation of potentials and for consulting in their implementation – in any case they are the basis for well-founded entrepreneurial decisions.

**Test MTM-Easy [HERE](#).**
