

08.04.2020 | TIME CALCULATIONS VERY EASY IN THE CLOUD OR AS AN ONLINE SERVICE

Do you need to adapt your human resources needs to fluctuations in orders or are you looking for a practicable solution? Do you want to use the crisis situation and short-time work to scrutinize your production processes? Then use MTM-EasyTime, the first cloud-based software solution to calculate production times and human resources requirements.

Do you need to adapt your human resources needs to fluctuations in orders or are you looking for a practicable solution? Do you want to use the crisis situation and short-time work to scrutinize your production processes? Then try out MTM-EasyTime, the first **cloud-based** software solution to **calculate production times and human resources requirements**.

Simply register at www.mtm-easy.com - book the type of access that you need - and get started!

Further Offers:

1. Webinar on MTM-Easy (free of charge)

Would you like to discover more about MTM-Easy or provide further training for your employees – and do so very easily on a laptop or PC in just 45 minutes? Then make use of our free webinar service.

The following dates are available (from 9 to 10 am):

April: 16 and 23 April 2020

May: 15 and 28 May 2020

June: 15 and 29 June 2020

You can register by e-mail; please send your details to helpdesk@mtm-easy.com

2. An online service for calculating times

If you are short of capacity and need some support with regard to time management issues,

make MTM your online back office and let us calculate your production times!

This is how it works:

Contact us directly on **+49 351 26 999 666** or send us your contact details, the number of components and workplaces as well as your specific task to determine the time data

- a. for the current situation
- b. for a workstation that will be set up from scratch
- c. and/or line balancing

Send the information to info@mtm-easy.com

We will then contact you very quickly with an all-inclusive price for calculating your production times. Once you approve the quotation, we will send you your time data by e-mail.
