

01.09.2017 | IRMA | DURATION: 9/2017 - 03/2020 (COMPLETED)

The Green Care research project IRMA (Socially Sustainable Inclusion of People with Disabilities in Horticultural Work Processes) of the University of Natural Resources and Applied Life Sciences, Vienna (BOKU) aims to enable people with disabilities who are currently being cared for and working in social institutions as part of occupational therapy to participate in the professional activities of society through inter-company cooperation with private horticultural enterprises.
